1999 Summary

The Chancellor's Senior Survey on the Undergraduate Experience at UIUC

I 999 Summary The Chancellor's Senior Survey on the Undergraduate Experience at UIUC

In 1989, a task force appointed by the Chancellor created a questionnaire to be administered to all graduating seniors at UIUC. The results of the survey, the Chancellor said, "will be useful in responding to requests for information on how our students feel about the educational experience they have had as undergraduates here and in identifying problems on campus which need our attention." The survey was administered in 1990 through 1993 and from 1996 to the present.

The Senior Survey has been administered electronically since 1998. In March 1999 an e-mail message regarding the Senior Survey was sent to all seniors on the May graduation list. The e-mail message from the Chancellor asked students to complete the survey posted on a university Web-site. Ten days following the initial e-mail message a follow-up message was sent reminding students to complete the survey. Survey respondents were entered into a lottery with a single prize of two free airline tickets valued at \$500 each. Of these 4,380 seniors, 1,991, or approximately 46%, responded. Similar to past years, the respondents were roughly representative of the graduating class by gender, ethnic origin, and academic affiliation as indicated below.

Percentages

Fine & Applied Arts	6.7	6.4
Liberal Arts & Sciences	36.0	40.9

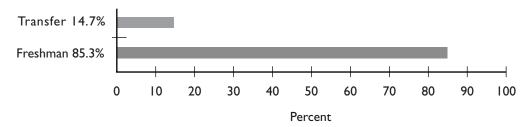

Care should be taken in interpreting the results of the survey because the small number of respondents in some sub-categories makes the results statistically unreliable. This summary presents highlights of the data following the general order of the survey, a copy of which is attached to this report. A "Comparison to Previous Years" section at the end of the summary presents yearly comparisons of survey results.

Demographics

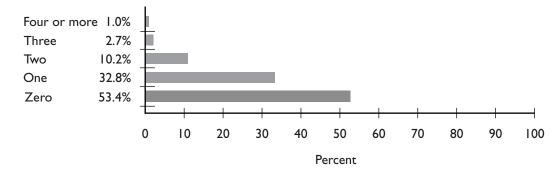

Survey respondents present a picture of a very traditional student body, with large majorities enrolling as freshmen and completing a bachelor's degree in eight semesters at age 21 or 22. The respondents were 77% Caucasian and 93% Illinois residents. Approximately 8% more females than males responded to the survey.

Academically, 72% of the respondents self-assessed their grade-point average as between 2.75 and 3.75. Approximately 50% of the students never changed their major, while another 33% changed majors once. Approximately 36% of the respondents reported working each semester part-time while another 39% reported working "occasionally" part-time. Approximately 69% of the respondents worked during the summer.

Satisfaction with broad aspects of the undergraduate experience

The survey asked about senior satisfaction in three broad categories, and then, in a brief fourth section, about the overall experience at UIUC. Students were asked to choose from a five-point Likert scale, ranging from one for lowest satisfaction to five for highest satisfaction. The broad categories were:

- Teaching and educational environment included 20 questions on the quality of teaching and facilities, access to courses and faculty, class size, and teachers' evaluation of students.
- Campus environment included 13 questions on racism, sexism, welcome, help, and atmosphere.
- Self-assessment of entering and exiting abilities required students to assess their entering and exiting competency levels in 20 abilities, including writing, speaking, organizing time, and using technology.
- Overall undergraduate experience included four questions: satisfaction with the overall educational experience at UIUC, current attitude toward UIUC, attitude toward the respondent's major, and what the respondent would do given the chance to start all over again.

The categories were an organizational device, making it inadvisable to seek generalizations, such as "students were satisfied *overall* with the campus environment." Instead, the summary will attempt to point out noteworthy responses to individual questions.

For all respondents, the items with the highest satisfaction ratings in this section were:

- **4.2:** Class size at the 300 course level.
- **4.0:** Faculty members' presence during posted office hours.
- **3.9:** Access to courses and course sections in major.
- **3.9:** Accessibility of faculty in general.
- **3.9:** Quality of teaching by faculty in your major.

For all respondents, the items with the lowest satisfaction ratings in this section were:

- **3.1:** Quality of academic program advising and information.
- **3.1:** Quality of career advising and information.
- **3.3:** Class size at the 100 and 200 course level.
- **3.3:** Process of student evaluation of teaching.
- **3.3:** Quality of teaching by TAs.

For all respondents, the items with the highest satisfaction ratings in this section were:

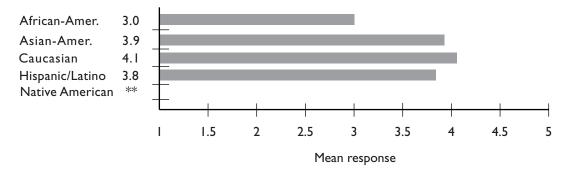

- **4.4:** Campus recreation (e.g., IMPE, WIMPE, Ice Arena, Illini Union).
- **4.1:** You felt that you were welcome at UIUC.
- **4.1:** It was easy to get involved in student groups and activities.
- **4.0:** The <u>classroom</u> environment was free from racist behavior.

For all respondents, the items with the lowest satisfaction ratings in this section were:

- **2.7:** The "University" cared about you.
- **3.2:** The <u>campus</u> environment was free from racism.
- **3.2:** Education provided on how to use the library.

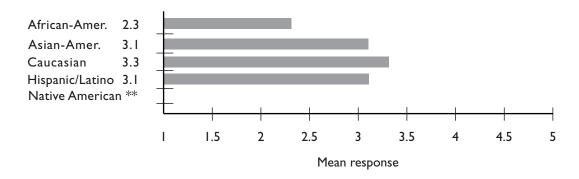

There was a noticeable difference between the ratings on the items asking if the classroom was free from racist behavior (4.0) and if the campus was free from racism (3.2). The graphs below show some of the variation by ethnic background on these questions. (Please note, as previously indicated, that survey respondents underrepresented African-American and Hispanic/Latino respondents. The number of respondents by ethnic origin is 1,513 Caucasian, 248 Asian-American, 80 African-American, 77 Hispanic/Latino, and two Native American.)

24a. The classroom environment was free from racist behavior.

COMPARISON TO PREVIOUS YEAR - Demographics of Respondents

This section of the report will compare 1999 Senior Survey results to responses recorded in 1990, 1993, 1996, 1997, and 1998. The 46% response rate in 1999 was the highest ever for the survey. Following are some differences and similarities among respondents over time.

Satisfaction with broad aspects of the undergraduate experience

Following is a listing of item scores for common items administered in previous years. Overall, there is consistency of student responses over time. However, the upward trend for many of the items in 1998 continued in the 1999 data. Only three item mean scores were lower in 1999 than in 1998 and 19 higher. Items with increases are marked with a (+) and items with decreases are marked with a (-). Five item means increased by +.2 of a point. These five are printed in bold typeface.

Student Ratings of Entering and Exiting Abilities

The students' ratings of their exiting abilities are significantly higher than their entering ratings in all three years the items were used. The average rating increase across abilities was +.8 in 1999, which is the average for the previous three years. Four abilities (printed in bold typeface) reported entering/exiting gains of at least one rating point.
