All sessions are in person in **room 182 of the Armory**.

Each session will feature about thirty minutes of pre-session work to complete to participate effectively in the live session.

This series is designed for experienced TAs or other instructors designing a course for the first time, but all are invited to attend.

**Please register** so we can get a sense of how many to expect, and so we can register you for a Canvas course that will let you access the pre-work. You don't need to commit to the whole series – come to what you want.
