

Spring 2022
Faculty Workshop Series
on Teaching & Learning

I
ILLINOIS
Center for Innovation
in Teaching & Learning

Are your courses well-designed and implemented to maximize your students being successful learners?

Students thrive when they feel personally validated, have a growth mindset, and are actively involved. As faculty we play a critical role in creating this type of culture where students can be successful.

“Whether in the classroom, the lab or in the opportunities they explore beyond (students) academic lives – we want to ensure that every aspect of the Illinois experience is contributing to a fundamental framework and scaffold for personal success.” Chancellor Robert J. Jones

Welcome to new and returning attendees!

We are pleased to be meeting in person. Come join a dynamic learning community by participating in this specially designed workshop series for all faculty (across all disciplines and rank). We’ll share strategies and best practices from research-based pedagogy.

Great conversations and handouts guaranteed!
