***Improving and Assessing Teaching Excellence***

*Teaching is an important goal and responsibility on our campus. Most recently, we have been actively identifying ways to more effectively assess and improve teaching. Think/reflect upon your teaching practice. What are some things you can implement in your teaching that will immediate impact student learning?*

***Welcome to new and returning attendees!***

***Come join a dynamic learning community by participating in this specially designed workshop series for all faculty (across all disciplines and rank). We'll share strategies and best practices from research-based pedagogy.***

***Great conversations and handouts guaranteed!***
